

E. APPROVED CHIMNEY SWEEPS

The importance of chimney maintenance and regular and frequent chimney sweeping has been emphasised in Section A3 of Part 3 of this Guide and again in Section A5 of Part 4. A good chimney is essential to the continuing efficient and safe operation of all solid fuel burning heating and cooking appliances. HETAS Ltd recommends that chimney sweeping is best carried out by a HETAS Approved chimney sweep. These sweeps will normally be members of the National Association of Chimney Sweeps or the Guild of Master Sweeps; however, former members of these organisations who have met HETAS requirements are also listed.

An up to date list of HETAS Approved Sweeps is available from our website www.hetas.co.uk

THE NATIONAL ASSOCIATION OF CHIMNEY SWEEPS*

NACS* is a national body covering chimney sweeps in the UK. Members have to have insurance cover and undertake to operate to a Code of Conduct carrying out their work to an agreed Code of Practice. They have a range of training courses available to them at their own dedicated Chimney Training Centre (CTC) and regularly receive technical updates through a Chimney Journal magazine. Their training courses are included as evidence towards achieving an NVQ qualification in Chimney Engineering, endorsed by the Construction Awards Alliance/City and Guilds. The NACS CTC is an accredited CAA/City & Guilds Training Centre.

In order to maintain and improve the standards of chimney sweeping, the NACS is accredited to operate the HETAS Solid Fuel Awareness 2-day Course, which is specifically aimed at members involved in sweeping chimneys serving solid fuel heating and cooking appliances. Entrants to the Course have first been assessed by the NACS as competent practical sweeps. They then study over a two day period a range of topics such as chimney design and construction together with potential faults and their detection and correction, solid fuels and their properties and the design, construction and proper and safe operation of solid fuel burning appliances.

A high pass standard is set for the examination, assessed by HETAS, which follows the Course and which enables successful candidates to be HETAS Approved. The present list of HETAS Approved Sweeps is given below. Such sweeps must carry a current NACS/HETAS or HETAS identity badge, which shows their name and photograph. They are also awarded a Certificate indicating that they have attended the Course and met the requirements of the examiner. Sight of this Certificate is available to customers on request.

A member of NACS will give an inspection and sweeping Certificate. Further information on this scheme is available from NACS at Unit 15, Emerald Way, Stone Business Park, Stone, Staffordshire, ST15 0SR, Tel: 01785 811732, Fax: 01785 811712, email: nacs@chimneyworks.co.uk or from their website www.chimneyworks.co.uk

THE GUILD OF MASTER CHIMNEY SWEEPS LTD

Membership of the Guild of Master Chimney Sweeps Ltd is restricted to chimney sweeps who have demonstrated their competence and knowledge of chimney cleaning to the required standard. This standard is based upon current building regulations, the Guild Training Manual and the old City and Guilds qualification. All candidates must complete the two day intensive theory course. If you are a trainee sweep you will have been enrolled on our novice mentoring program.

The assessment in chimney cleaning are carried out in real time, on site, at paying customers' premises and subject to the stringent standards set by the Guild of Master Chimney Sweeps Ltd. Guild membership rules require all members to hold public liability insurance and to issue sweeping/inspection certificates to all clients.

The Guild of Master Chimney Sweeps Ltd requires that candidates demonstrate their competence and underpinning knowledge in the following categories:

Open fires; stoves or room heater type; boilers or cookers; inglenook type with or without register plate. This allows the candidates to demonstrate their abilities across a range of situations whilst at the same time demonstrating their underpinning knowledge of appliance requirements for safe effective, function. The candidates also have to demonstrate that they have a good knowledge of chimney construction and what may inhibit that function.

Further information about the Guild may be obtained from the Head Office; 24 Church View, Aveley, Essex RM15 4LH. Tel: 0800 043737 or from the web site www.guildofmasterchimneysweeps.co.uk

THE ASSOCIATION OF PROFESSIONAL AND INDEPENDENT CHIMNEY SWEEPS

APICS was formed in April 2002. The organisation recognises the independence of sweeps but forms them into a Trade Association that sets standards for and improves the knowledge and safety of sweeps. Among its aims are to ensure the competence of its members as chimney sweeps and to raise the standards of the profession; to update the knowledge of its members concerning relevant legislation and regulations and to keep its members abreast of developments in techniques and equipment; to educate the public about the need for regular sweeping of flues and chimneys by a competent sweep in accordance with the requirements of BS EN 12391-1 informing them of the dangers of carbon monoxide poisoning and the risks of chimney fires.

Members of APICS must have demonstrated their competence as chimney sweeps and to be listed as Approved sweeps by HETAS must have attended and met the requirements of the assessor following a HETAS Awareness course.

APICS operates a Code of Conduct to ensure that its members give the public a reliable, efficient flue and chimney sweeping service. They must carry sufficient equipment to ensure completion of the task they are employed to carry out and must fully inform the customer in writing of any problem they have found. A certificate with the APICS logo on it should be provided for every chimney swept.

Chairman – Ryan Metters, Administrator – Peggy Metters

Further information on APICS can be obtained from its official address at Bryallen, Hengar Road, St Tudy, Bodmin, Cornwall PL31 3PL.
