HETAS TRAINING COURSES

SUBJECTS COVERED

SOLID FUEL AWARENESS	SOLID FUEL ENGINEERS
Trade and Advisory Bodies (HETAS, SFA, ACMS)	Special System Design Requirements
Related Health and Safety	Appliance and Heating System Fault Finding
Carbon Monoxide Issues	Appliance and System Commissioning
Appliance Types	Examination*
Fuels	
Correct Installation Requirements	
Open Fires	
Room Heaters	
Boilers and Cookers	
Chimney Design and Principles	
Chimney Principles and Safety	
Chimney Fault Investigation	
Appliance Maintenance	
Examination*	
*The examinations will be different depending on the Course taken	

All courses include the **HETAS** training manual, literature from the **SFA** and a copy of the **HETAS** guide to approved products and services.

This **HETAS** Course is designed to ensure that Heating Engineers are competent to install combustion appliances – Solid Fuel and Wood, in accordance with current Building Regulations (England and Wales). Materials are derived from the Building Regulations and current relevant standards.

Installers of Wood Pellet Stoves will need to complete an Appliance Manufacturers Course in addition to the **HETAS** Course to gain competency for installation of these stoves.

NOTE: The successful completion of this course **DOES NOT** enable you or your company to claim membership of the **SFA/HETAS** Registration Scheme. Application forms can be supplied on request from HETAS Ltd on 0845 634 5626 or to the following address:- Orchard Business Centre, Stoke Orchard, Cheltenham, Glos, GL52 7RZ.
